GRSFN0882 is a sire that ticks all the boxes for those breeders looking for performance and the little extras that add up to the near perfect package. This bull has all the big marbling sires in his pedigree and adds growth and EMA as well as being free from recessive genes. But still there's more, with an AA SCD and a tenderness score of 7, N0882 cuts a fine picture phenotypically as well, which all adds up to GRSFN0882 being a very exciting package of perfection!
